New this year will be an ADV route for the bigger dual sport bikes or anyone looking to take their dual sport bike out for the first time on some open fields & gravel roads. It is very important, if/when you are in the fields you must stay on the trail. Farmers will have winter crops, or may have not been able to pick crops by then. It is crucial that we stay on the trail to continue this event. This route will be arrowed separately but will stay in the same direction as the rest of the dual sport riders. The woods riding is not big bike friendly & is set up more for single track enduro style riding. Last year's route was just under 45 miles. We will have ADV mileage once we get closer to the event date. Feel free to visit *Fibbers Bar & Grill* after the event & share stories of the day's ride.
